EXPERIENCE

FullStack Developer | Technosoft Solution, Pune

August 2025 - Present

- Developed **backend APIs** with **ORM-based relational mappings** for **Course–Teacher, Subject–Teacher, and Class–Teacher assignments** to streamline academic resource management.
- Built a scalable **Notification Center module with SMS API integration**, supporting dynamic templates and automated messaging workflows for real-time client communication.
- Designed and executed **complex SQL queries** and **database operations** to support new features, **improve performance**, and ensure reliable **data retrieval** and **storage across multiple application modules**.
- Developed a real-time Token Management System using React.js, **Node.js**, SQL, and **Socket.IO**, enabling live queue updates, counter-based token servicing, and **efficient digital queue management**.

Software Developer Intern | 5TechG Lab LLP, Sangali

December 2024 - May 2025

- Built responsive, high-performance interfaces using React.js and React Router, integrating backend APIs to improve navigation flow and overall user experience.
- Developed reusable, dynamic UI components with real-time data updates and contributed to backend endpoints to support smoother full-stack feature delivery.
- Designed and optimized SQL queries and data-handling logic, improving data retrieval performance and reducing redundant API calls through effective state management with Redux.
- Designed and optimized SQL queries and data-handling logic, improving data retrieval performance and reducing redundant API calls through effective state management with Redux.
- Designed RESTful APIs for Excel validation and ZIP file extraction, ensuring data verification before processing.

RELEVANT PROJECTS

Travel journal | *React.js, Redux, Tailwind CSS, REST API*

- Developed a **timeline-based UI** using React.js to display travel stories chronologically, improving content readability and user engagement.
- Designed interactive components and responsive layouts with **Tailwind CSS**, ensuring optimal display across devices.
- Integrated **full-text search, date filters, and favorites** functionality, enhancing data retrieval speed by **40%**.
- Collaborated with backend APIs to manage journal entries, and continuously optimized UI performance as part of ongoing feature development

The AI Personal Desktop Assistant | *React.js, Python, MongoDB, Flask*

- Built the **React.js** frontend for an AI-based assistant with an interactive UI for voice commands and reminders
- Integrated Flask backend with MongoDB to manage user tasks, schedules, and preferences.
- Collaborated in a 4-member team, handling component structure and **Git** version control.

TECHNICAL SKILLS

Databases: MySQL, MongoDB,

Libraries: JWT, bcrypt, Mongoose

Tools: Git, GitHub, Postman, VS Code, Xampp

Web Development: React.js, Node.js, npm, Express.js, Tailwind

Programming skills: Core Java, HTML, CSS, JavaScript, TypeScript,

Concepts: Object-Oriented Programming (OOP), Collection Framework, RESTful APIs, Redis, CI/CD Pipeline

Cloud: AWS S3, EC2

CERTIFICATE

- DBMS and SQL Certification:** Mastery of database management, SQL queries, and relational database design.
- Programming in Java Certification:** Advanced proficiency in Java, including object-oriented programming (OOP), data structures, algorithms, and design patterns
- The Complete 2024 Web Developer Certification:** Comprehensive training in HTML5, CSS, JavaScript, React.js, Node.js, and backend development.

EDUCATION

Rajarambapu Institute of Technology

Bachelor of Technology in Computer Science | CGPA - 7.72/10

Urun-Islampur

Passout June 2025
